in EA department. At first, I was disappointed at the number of students who were not interested in the program. However, after a few weeks, I realized that the students who were interested were the most motivated and capable. This was a great sign for the future of the program.

My class of superior knowledge were really my own and I am sure these students will go on to achieve great things in their careers. I am proud of their accomplishments and grateful for their hard work.

I am sure that these students will continue to make a positive impact on the world. I am proud of their achievements and grateful for their hard work.
